REPORT ON CELEBRATION OF WORLD SOIL DAY

05-12-2021

World Soil Day (WSD) is held annually on 5 December as a means to focus attention on the importance of healthy soil and to advocate for the sustainable management of soil resources. Soil sanitization and solidification are the major soil degradation processes threatening ecosystem and are recognized as being among the most important problems at a global level for agricultural production, food security and sustainability in and semi arid regions. Keeping this in mind Dept of Civil Engineering under CRANES student association planned a Quiz program to create awareness on World Soil Day.

Quiz competitions are always interesting and informative, which provide excitement among the students and also make them aware of current affairs. Department of Civil Engineering successfully conducted a Quiz competition in the department seminar hall on 5th December 2021 for the students of all B.Tech civil engineering students under CRANES student association. Rules and regulations of the quiz were explained at the beginning. It was interesting competition, including objective questions with options round and guess the picture round, which engaged the students for one hour. The students showcased their brilliance by rapidly answering the questions. It was very informative and knowledge enriching competition for the participants.
