Report:

NSS Unit organized a Tree Plantation in association with Police Department, Gudur at College Premises on 06-07-2019. Our College Principal Dr.CH.V.S.Parameswara Rao inaugurated the programme by planting a sapling. All NSS volunteers and other students have participated in the programme. Nearly 200 saplings were planted in the campus as a part of this programme.

The program which was indented to promote environment development went on successfully with the close cooperation and involvement of "Police Department" and the Students.

Report:

NSS unit of Narayana Engineering College, Gudur has organized a program titled "Helping hands to Needy people" in the old age home on 29-7-2019. A group of staff members and students from our institution went to old age home for donating blankets for the aged people. Nearly 30 old age people are staying in the old age home. Some of inmates of the old age home are left by their children to get rid of their responsibility. We have made our humble contribution to bring some amount of comfort to the senior citizens left mercilessly without any care or compassion.

REPORT:

The National Service Scheme (NSS) unit of EEE Dept. organized a talk-cum-seminar on Organ Donation in association with DYWO/SETNEL, Nellore on 13-08-2019 at our campus. A total of 84 students participated in this talk-cum-seminar. despite having their final semester examination. The talk started with the welcome speech on a brief introduction of Organ Transplantation. Chief Guest beautifully described the type of transferable organs and tissues, discussed on renal failure, differentiated between being in a state of Coma and being Brain Dead and summarized the current case studies about the demands of organs transplantations and available resources. At the end of the seminar, Principal Sir summarized the overall importance and the need for Organ Donation and encouraged all students to create awareness among the youth. The program ended with the Vote of thanks by our NSS Program coordinator. The primary objective of this talk was to create awareness among the youth about the current scenario of Organ Donation and Tissue Transplantation and encouraged them to “Donate Organs and Save Lives,” One organ donor can save up to 8 lives and enhance the lives of many others through tissue donation. Overall, the day was quite informative, and there was an excellent interaction between all the volunteers and the respective speakers.

REPORT:

To create awareness about dengue, its causes, symptoms and remedies ECE Dept.NSS unit organized Dengue Awareness Campaign on the occasion of World Mosquito Day on 20-08-2018. The students were accompanied by the following staff N.Koteswara Rao and I.Jithendra. This awareness program was conducted in the neighbourhood villages which includes Janardhan Reddy Colony and Dhurjati Nagar Colony. The NSS volunteers took this opportunity to create awareness among the public about dengue and the Aedis Mosquito which causes the dengue. The students also showed them the "Larva" which emerges from the egg of Aedis Mosquito. Students visited each house and especially slum areas and created consciousness among lots of People who were unaware of these Dengue situations and also informed them about the Dengue fever, its severe effects and how to tackle these situations in an easy simplified manner so that they could remain safe. The students also requested the people not to leave the water to get accumulated nearby their residences. The campaign covered around 100 houses in the neighbourhood villages. This effort was highly appreciated by the public.

Report:

The Income Tax Department launched Kardaata-e-Sahyog Abhiyan to aware tax payers of different schemes and its benefits at parts of the region. Official spokesman said that the 'Kardaata e-Sahyog Abhiyaan' was launched by the Income Tax Department, the Officers of gudur in order to popularize and to provide the effective services to the tax payers. The official further added that the main aim of the scheme is to facilitate tax payers for e-filing of returns, aware them about Income Tax related matters and related changes in forms/laws/utilities, outreach programmes with taxpayers and e-return preparers and any problem being faced by them regarding e-filing of return. The tax payers however, expressed satisfaction and raised queries regarding the scheme in the camps organized for the purpose which were duly addressed by the taxation authorities conducting these camps best to the tax payers' satisfaction.

REPORT:

In India, Ganesh festival is a very important festival celebrated by many with festivity grandeur, fun, and colors. During this occasion as tradition demands, colorfully painted idols are brought home for this special occasion. But from this point of view of protecting nature since colors used to paint the idol would pollute the water on immersing the idol, and many aquatic creators. Hence, this walkathon was organized to educate today's youth on the topic and to propagate the use of eco - friendly Ganesh idols. As part of this Narayana Engineering College, Gudur in association with Rotary Club, Nellore organized rally on 30-08-2019.

Report:

A Blood donation camp was organized by our NSS unit, in collaboration with Indian Red Cross Society, Gudur, through which more than 120 units of blood was donated by both students and the staff members of our Narayana Engineering college. It is a way of Narayana Engineering College; Gudur gesture in bringing a ray of hope to contribute to the serious problems of acutes shortage of blood.India

faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

EVENT REPORT

Name of Event	World fist Aid day
Date(s) of Event	14-09-2019
Type of Event	NSS (National Service Scheme)
Resource Person and Contact Details	N.Brahmaiah- Retired CAS In charge of Blood bank Rtd,
No of participants	II EEE and III students (143)
Organized Department	EEE & NSS Unit
Reporter's Name and Contact Details	Mr.P.Sudhakaran Assistant Professor Department of EEE Narayana Engineering College, Gudur. A.P Ph:7330781661 Email: sudhakaran.ponnuru@necg.ac.in
Panelists	Dr.J.A.Baskar Prof &HOD-EEE Dr.V.Ravi Prasad- Vice principal, Mr.N.Chenchaiah - Assoc Prof

1) Brief outline of key issues and challenges addressed in the event

Narayana Engineering College, Gudur National Service Scheme Organized World First Aid Day on 14-09-2019. In this program the students participated and learnt how to give first aid when there is a problem of burning, suicide, heart attack, snake bite, sunstroke. In this program Dr. N.Brahmaiah- Retired CAS In charge of Blood bank Rtd, delivered a valuable speech and given the awareness about the first aid tips and measures at different situations. First aid is immediate help provided to a sick or injured person until professional help arrives. It is concerned not only with physical injury or illness but also with other initial care, including psychosocial support for people suffering emotional distress from experiencing or witnessing a traumatic event.

2) Key messages, outcomes, recommendations

Key Points:-

Bites and Stings Symptoms: Wound (animal or human bite) or swelling and pain (insect sting).

Treatment: For animal and human bites, cleanse wound with soap and water and apply iodine containing antiseptic; submit animal for rabies test. For poisonous snakebite, cooling the site of the wound with ice will slow down absorption of poisons; antivenin treatment is required only for a small number of reptile bites. Prevent exertion and taking of stimulants by victim.

Burns

Symptoms: Redness (first-degree burns), blistering (second-degree burns), charring of skin (third-degree burns). Treatment: Cold water may be applied to first- and second-degree burns. All burns should be covered with sterile non-adherent dressings. Chemical burns should be washed with large quantity of water; vinegar may be added to the water for alkali burns, and sodium bicarbonate may be added to the water in case of acid burns.

Fainting

Symptoms: Unconsciousness, paleness, rapid pulse, coldness of the skin, sweating. Treatment: Leave victim lying down, loosen clothing, roll victim to the side and wipe out mouth in the event of vomiting.

Poisoning

Symptoms and signs: Information from victim or observer, stains about mouth, presence of poison container, breath odor, and pupils contracted to pinpoint size from morphine or narcotics. Treatment: Dilute ingested poison by administering water or milk, administer specific antidote if described on label of commercial product. Do not induce vomiting if poison is strong acid, strong alkali, or petroleum product, or if victim is unconscious or convulsive.

3) Conclusions by the Chair of the event

First aid is a vital initial step for providing effective and rapid intervention that helps reduce serious injuries and improve the chance of survival. Taking immediate action and applying correct and appropriate first aid measures make a difference when saving lives. Having quality, evidence based first aid education available to people worldwide will build safer and healthier communities by preventing and reducing risks in daily emergencies and disasters..

Report:

Since the invitation from the police Gudur was received on the occasion of Police Commemoration Day, a Blood donation camp was organized by our NSS unit, in collaboration with Police Department, Gudur, through which more than 60 units of blood was donated by both students and the staff members of our Narayana Engineering college. It is a way of Narayana Engineering College; Gudur gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it. The chief guest of the programme made his speech the valuable services of the police given to the society and sacrifices. He also appreciated the students of NEC, Gudur for their generosity

Report:

The Breast Cancer Awareness Month, marked in countries across the world every October, helps to increase attention and support for the awareness, early detection and treatment as well as palliative care of this disease. Currently there is not sufficient knowledge on the causes of breast cancer; therefore, early detection of the disease remains the cornerstone of breast cancer control. When breast cancer is detected early, and if adequate diagnosis and treatment are available, there is a good chance that breast cancer can be cured. If detected late, however, curative treatment is often no longer an option. In such cases, palliative care to relief the suffering of patients and their families is needed. In this Connection, NSS Unit, Narayana Engineering College organized Awareness rally on Breast Cancer from YSR circle to Railway Station, gudur on 31-10-2019.

Report:

A sum of Rs.4,500/- was handed over to the Son of Ms.O.Ramanamma resident of Piduru Village, Manubolu Mandal,Nellore Dist . She was suffering from Breast Cancer and was admitted in Chennai Hospital. The cost for her operation is very high and her family cannot afford it. Our donation was a slight relief and bringing a little amount of relief to the suffering family. Though we were sympathetic towards the health condition of the girl and the financial problem of the parents. We could contribute a little amount keeping in view owe other commitments and programs.

Report:

NSS unit of Narayana Engineering College, Gudur has organized a program titled "Distributon of Blankets" in the old age home on 21-01-2020. A group of staff members and students from our institution went to old age home for donating blankets for the aged people. Nearly 30 old age people are staying in the old age home. Some of inmates of the old age home are left by their children to get rid of their responsibility. We have made our humble contribution to bring some amount of comfort to the senior citizens left mercilessly without any care or compassion.
