REPORT ON EXPLORING THE USAGE OF CHATGPT

Date: 18/12/2024

The department of computer science and engineering(AI&ML) organized The event Exploring the Usage of ChatGPT was successfully conducted on **17 -12-2024** under the byte brains club. This event was organized exclusively for **II B.tech** students, aiming to provide them with a comprehensive understanding of how ChatGPT can be utilized effectively in various domains. The event focused on its applications in **academic research, programming assistance, content generation, and problem-solving.**

The event began with an inaugural address emphasizing the growing significance of AI-driven tools like ChatGPT in education and professional fields. This was followed by an interactive demonstration showcasing the capabilities of ChatGPT and its practical applications.

The event covered an introduction to ChatGPT, explaining its functionalities, advantages, and limitations. Various real-world applications such as coding assistance, automated content writing, idea brainstorming, and summarization of large texts were discussed. A hands-on session allowed students to experiment with ChatGPT, understanding its prompts and responses in depth. Ethical considerations and responsible AI usage were also highlighted to ensure students develop a critical approach toward AI-driven tools.

A Q&A session provided students with an opportunity to clarify their doubts and explore additional use cases relevant to their studies and future careers. Live demonstrations showcased how ChatGPT can be integrated into learning workflows, helping students streamline their research and enhance productivity.

The event was a great success, equipping students with insights into the potential of ChatGPT and how it can aid their academic and professional growth. The event concluded with a vote of thanks by [Event Coordinator/Professor], acknowledging the efforts of the organizers, speakers, and participants.

Based on student interest, future workshops and interactive sessions on AI tools and their applications were announced, ensuring continuous learning opportunities for students eager to leverage AI for their educational and career advancement.

Conclusion:

The event was a great success, helping students understand how AI tools like ChatGPT can support their learning and careers. It concluded with a vote of thanks by [Event Coordinator/Professor], appreciating the efforts of all involved. Future workshops on AI tools were announced to encourage continuous learning.
